Dear Sir:

Thank you for your letter concerning are reception I have checked are log books and with the announcer, I gess the fact that WHB was on low power had a lot to do with you receiving us

I have been out to Nebraska on sereral occations to a small town known as BROKEN BOW visiting relatives and WHB does come in there very good.

WDSM radio runs a four tower directional array at night and one of the stations we protect is WHB.

I am enclosing a QSL card and coverage map.

Yours Truly

Carl G. Williams
